Rationale

This policy outlines what are acceptable and unacceptable uses of ICT facilities within Yorkshire and Humber Teacher Training. It is relevant to trainees, pupils, staff, governors and visitors.

Whilst we aim to support the full use of the vast educational potential of new technologies we also have a responsibility to provide safeguards against risk, unacceptable material and activities. This policy is designed to protect trainees, pupils, staff and visitors from e-safety incidents and promote a safe e-learning environment for pupils.

At Yorkshire and Humber Teacher Training we believe that pupils should be trusted to use digital technologies in a principled and productive way. The general spirit of this policy is about giving everyone the opportunity to make productive decisions in the ways they decide to use digital technologies; we should all be fully engaged in the on-going debate about what responsible digital citizenship means and how we can nurture it within our school.
